DETAILED ACTION

THIS ACTION IS RESPONSIVE TO THE AMENDMENT FILED 23 May 2005.

- Claims 1-12 were amended.
- Claims 1-12 are pending.

Response to Arguments/Amendment

Applicant's reply to the prior Office action (mailed 29 March 2005) filed 9 February 2004 has overcome the objections to the specification and the claims indicated in the prior Office action. This objection has been withdrawn.

Applicant's amendment to claims 9 and 10 has overcome the rejection on the basis of Double Patenting indicated in the prior Office action. This rejection has been withdrawn.

Applicant's amendments to claims 1-6 and 8-12 to further define the claimed subject matter, and supporting reasons applicant has provided in the filed response where the requirement "that the ditch of the cover is inserted in to the clip" thereby claiming the combination of the cover and the clip, has overcome the claim rejections to claims 1-6 and 8-12 under 35 U.S.C. §102 indicated in the prior Office action.

Allowable Subject Matter

Claims 1-6 and 8-12 are allowed.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 7 is rejected under 35 U.S.C. 102(b) as being anticipated by Razza (U. S. Patent No. 5,044,175). Razza ('175) discloses a decorative cover (20) for a clip (16) which comprises:

Art Unit: 3677

a cover (20) and a thin plate wall (38) formed in an inner surface of the cover body and running sideways along the cover body; wherein a fitting ditch (formed between plate 20 and 26) is formed on the thin plate wall between the wall and the inner surface of the cover body; and wherein said fitting ditch of said cover is inserted (as shown in Figs. 2 and 4-6) into said clip (16), thereby attaching the cover to the clip body extending to an end of the decorative cover:

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
